The Metal Detector
Saves Your Expensive Silver Plate Cutlery From getting Trashed.

Finally, a money saving innovation that saves your metal flatware - including high end gold and silver plate and expensive 18/10 and 18/8 stainless steel!

- The Silver Chute fits conveniently on trash containers. A special detector senses all metal: Flatware, Cutlery, Creamers, Ramekins and more!

- When food passes through the Silver Chute...SILENCE!

- When any metal passes through the Silver Chute, a tone sounds to alert you. The item can be retrieved before it goes out with the trash.
